Chartered April 22, 1946

Greetings Fellow Rotarian Susan Howell,

Remember we all have the power to be the color to someone's gray! When you have the chance to make a small difference or to spread a little kindness - do it! Today, I was able to help an 81 year old women with an issue she was having at my work place. It took me some time to help her and after with tears in her eyes, she thanked me. It reminded me that random acts of kindness are always the way to go even when you don't have the time! Slow down and make a difference.

## This week's program: PE PLUS - Peninsula Community Center

PE+ is a strategic Healthy Schools Initiative partnership project between Redwood City Parks, Recreation and Community Services (PRCS) ) and Peninsula Community Center (PCC). These two organizations provide physical education classes 2 days per week for grades K-5, plus recess/lunch activities and support, at 10 school sites in Redwood City School District, reaching over 5000 students per year.

Trained PE+ coaches who are passionate about sports/fitness, youth development, and community engagement deliver a comprehensive, sequential, standards-based PE curriculum that:

- provides instruction and exposure to a wide variety of sports and games such as volleyball, dance, soccer, Frisbee, and culture games
- improves children's physical fitness and motor skills
- promotes healthy lifestyle choices and eating habits through "Health & Nutrition Huddles"
- develops the social-emotional well-being of each child by building confidence, teamwork, and enjoyment of physical activity

*"The coaches are an inspiration to the children...I know my students would not receive such a comprehensive PE program if it were not for the quality of instruction, dedication of practice and teamwork, and attendance to each student the coaches provide every PE class." — 5th grade teacher (PCC Newsletter, September 2013)*

*"It is exciting to see some children, who are not too successful academically, being successful in PE through the way the coaches weave different skills into each lesson." — Kindergarten teacher*

## Next week's program: Pete Liebengood

Pete Liebengood will be presenting on self-publishing. How he was able to write and publish two books and everything that he went through to get his book published and marketed.

His first novel, Class of '62, was published by Moradal in 2012.

**Self-publishing** is the publication of any book or other media by the **author** of the work, without the involvement of an established third-party **publisher**. A self-published physical book is said to be **privately printed**. The author is responsible for and in control of the entire process, including, in the case of a book, the design of the cover and interior, formats, price, distribution, marketing and public relations. The authors can do it all themselves or outsource all or part of the process to companies that offer these services.

The key distinguishing characteristic of self-publishing is that the author has decided to publish his or her work independent of a publishing house. In the past, self-published authors had to spend considerable amounts of money preparing a book for publication, purchasing bulk copies of their title, and finding a place to store their inventory. **Print-On-Demand** and **e-book** technology have allowed authors to have a book printed or digitally delivered only when an order has been placed.

In 2008, for the first time in history, more books were self-published than those published traditionally. In 2009, 76% of all books released were self-published, while publishing houses reduced the number of books they produced.<sup>[1]</sup> According to Robert Kroese, "the average return of the self-published book is £500".<sup>[2]</sup>

Technological advances have enabled this growth:

- **Online retailing**, wherein dominant players like **Amazon.com** have enticed readers away from bookstores into an online environment.
- **Print-On-Demand** (POD) technology which can produce a quality product equal to those produced by traditional publishers – in the past, you could easily identify a self-published title because of its quality.
- Technological advances with **e-book readers** and **tablet computers** that enhance readability and allow readers to "carry" numerous books in a concise, portable product.
- Access to global distribution channels via online retailers.

## (April 21,2015) The Draft is Here!

1 message

---

District 5150  
Chartered April 22, 1946

Greetings Fellow Rotarian Susan Howell,

As we get started on our membership drive this week, I thought I would share some successful tips on recruiting new members!

1. **“ASK”** – a sometimes forgotten theme which needs to be regularly mentioned to anyone who wants to know how to get into membership recruitment. A good beginning!
2. Always carry your **Business Card** . . . your name and contact information can both start and close a valuable productive Rotary conversation.
3. **“Timing” can be everything!** Catching a good prospect at the wrong moment is a waste and a deterrent to future efforts. Patience . . . the time will come.
4. **“Age”** – keep an open mind always . . . especially to retired, experienced, able people who are looking to be “needed.”
5. **Be a good listener** . . . and feed your recruit in small “mouthfuls.” Too much Rotary “stuff” will choke not only the interest but also friendship. **“Direct”** your answers not only to the question asked, and to the logical next question . . . but listen, listen, listen!!!
6. Select potential members from a list of **club service vocational needs** . . . (i.e. photography, printer, writer, construction foreman, equipment rental, restaurant owner, etc.) Remember there are some members that will not want another member with the same club service listing as them.

7. A key area often over-looked is the necessary element in **wanting to become a Rotarian** – not just a member of a Rotary Club. The “want to” is often the missed ingredient in the application/recruitment procedure. (Particularly a commitment to helping/securing others – as opposed to selling, self improvement, self marketing.)
8. **The amount of time required to complete the New Member Process** can well determine the recruit’s length of Rotary Tenure. Remember the KISS principle – it may help keep things moving. A well manicured, prioritized and well-publicized New Member Process procedure is critical to recruitment and retention. (2 weeks to 1 month = more range, enough time to process people.)
9. The **media can help to identify potential Rotarians**. Face it: virtually every positive piece of news focuses on a Make A Difference Person. By letting that person know of Rotary’s appreciation/interest, particularly when that person lives in your community, may be the start of a “new Rotarian.” (And . . . the effort says a lot about Rotary’s support for community members/projects.)
10. **Follow up!** Remember to follow up with potential new members and make them feel part of the club.

## **PORT HOSTS 77th Annual South Bay Opening Day of Sailing Season May 2nd**

The 77th annual South Bay Opening Day of the sailing season, featuring a decorated boat parade and free public activities, is scheduled for Saturday, May 2, at the Port of Redwood City. This year's theme is "Pirates of the South Bay."

The decorated boat parade and blessing of the fleet starts at 11 a.m. and is best viewed from the observation deck at the Port of Redwood City. Spectators can vote for their favorite decorated boat to determine which one will receive the coveted "Spectators Choice Award."

The public viewing experience will be enhanced in wake of last month's completion of improvements to the public access and landscape areas between Seaport Center and the Fishing Pier. Improvements include:

- Reconstruction of the sidewalks, parking areas, benches, and ADA access long the waterfront promenade to improve views and connectivity.
- New landscaping with palm trees, reduced-size lawn, and plantings that discourage Canadian geese.

The public can enjoy the many exhibits in the Sequoia Yacht Club parking lot area from 10:30 a.m. to 3 p.m., including booths by Marine Science Institute, police and fire departments, West Marine, Dock-walkers, Power Squadron, and the Coast Guard Auxiliary. Water activities also include: Coast Guard cutter Friday evening and Saturday, rowing club and kayaking demonstrations, and the Sea and Mariner Scouts vessels.

**77th Annual South Bay Opening Day**

**Saturday May 2**

- Breakfast – Sequoia Yacht Club
- Blessing of Fleet
- Decorated Boat Parade & Awards
- Port of Redwood City Turning Basin
- Lunch – Sequoia Yacht Club
- Dinner – Peninsula Yacht Club

**Sunday May 3**

- Gin Fizz Brunch – South Bay Yacht Club

Promoting safe and environmentally sound recreational boating throughout the South San Francisco Bay (and not real piracy)

For more info visit: [www.southbayopeningday.org](http://www.southbayopeningday.org)

Parade grand marshal will be Captain Gregory Stump, Commander Coast Guard Sector San Francisco, which is comprised of nearly 800 active, reserve and civilian personnel whose area of responsibility spans from the Oregon border south to San Luis Obispo and includes over 2,500 miles of shoreline. Stump was a Coast Guard waterborne operations officer during Hurricane Katrina in New Orleans.

Lunch will be available for purchase at the Sequoia Yacht

## PORT HOSTS 77th Annual South Bay Opening Day of Sailing Season May 2nd

The 77th annual South Bay Opening Day of the sailing season, featuring a decorated boat parade and free public activities, is scheduled for Saturday, May 2, at the Port of Redwood City. This year's theme is "Pirates of the South Bay."

The decorated boat parade and blessing of the fleet starts at 11 a.m. and is best viewed from the observation deck at the Port of Redwood City. Spectators can vote for their favorite decorated boat to determine which one will receive the coveted "Spectators Choice Award."

The public viewing experience will be enhanced in wake of last month's completion of improvements to the public access and landscape areas between Seaport Center and the Fishing Pier. Improvements include:

- Reconstruction of the sidewalks, parking areas, benches, and ADA access long the waterfront promenade to improve views and connectivity.
- New landscaping with palm trees, reduced-size lawn, and plantings that discourage Canadian geese.

The public can enjoy the many exhibits in the Sequoia Yacht Club parking lot area from 10:30 a.m. to 3 p.m., including booths by Marine Science Institute, police and fire departments, West Marine, Dock-walkers, Power Squadron, and the Coast Guard Auxiliary. Water activities also include: Coast Guard cutter Friday evening and Saturday, rowing club and kayaking demonstrations, and the Sea and Mariner Scouts vessels.

Parade grand marshal will be Captain Gregory Stump, Commander Coast Guard Sector San Francisco, which is comprised of nearly 800 active, reserve and civilian personnel whose area of responsibility spans from the Oregon border south to San Luis Obispo and includes over 2,500 miles of shoreline. Stump was a Coast

Guard waterborne operations officer during Hurricane Katrina in New Orleans.

Lunch will be available for purchase at the Sequoia Yacht Club. A band will perform from noon to 2 p.m.
